

HW 2 Team Working Agreement Assignment

CHEMICAL AND FUELS ENGINEERING 4903

Fall Semester 2017

2nd Assignment

Submit your work on Canvas

Develop a team working agreement with the team for your first laboratory assignment. The working agreement should contain information about:

- 1) Communication Expectations
- 2) Participation Expectations
- 3) Decision Making and Problem Solving Methods
- 4) Responsibilities of Individuals to the Team
- 5) How to Manage Disagreements
- 6) Consequences for non-performing team members
